Home and Garden - Bayer Advanced

Yes, Carpenter Ant & Termite Killer Plus Ready-To-Use may be applied indoors for control of the following pests: Carpenter Ants: For effective control, locate and treat nests and surrounding areas. Apply around doors and windows and other places where ants enter premises and where they crawl and hide.

Carpenter Ant & Termite Killer Plus Ready-To-Use | Bioadvanced

Bayer Ant & Wasp Dust employs a double-pronged method of attack to control nuisance ants. The pack can either be squeezed gently to puff the insecticide dust into the entrance of the nest, or a thin layer of dust can be applied along the tracks where the ants pass. Either way, the ants collect the dust on their bodies as they move along, with every ant becoming an unwitting carrier of the insecticide.

Advance Ant and Wasp Dust - Bayer | GardensOnline

Bio Advanced Vegetable and Garden Insect Spray previously known as Bayer Advanced Vegetable and Garden Insect Spray is effective on most of the plants around your home. BAYER ADVANCED Pesticides at Lowes.com

Carpenter Ants are ¼ to ½ inch long black or reddish-black pests (there are also slightly larger, winged reproductive forms that leave the nests in spring and early summer) that destroy wood and wood-like structures in and around homes, while giving painful bites to humans. Damage Carpenter Ants leave slit-like holes when they enter the wood, which they use as a nesting place.

Carpenter Ants | Bioadvanced

(1 fl. oz.) of Carpenter Ant & Termite Killer Plus Concentrate per gallon of water. Spray or brush evenly onto outdoor wooden surfaces. Spray into areas of known or suspect insect activity such as holes, voids and channels in damaged wood, spaces between wooden parts of a structure, spaces between different types of building materials (for example, wood and concrete), and cracks and crevices.
