A Radical Perspective on the Role of Law in the Global Political Economy. In The Corporation, Law and Capitalism, Grietje Baars offers a radical Marxist perspective on the role of law in the global political economy. Closing a major gap in historical-materialist scholarship, they demonstrate how the corporation, capitalism's main engine from city-state and colonial times to the present multinational, is a masterpiece of legal technology.

Company law and capitalism by Hadden, Tom

Company law harmonization efforts mirror prevailling fashions about what is considered good corporate law. Harmonization came in two periods, each of which roughly linked to the success of a particular model of capitalism that was on the ascendancy at the time. The first one began with the formation of the EEC.
