International harmonization of economic regulation is an attempt to eliminate, or at least reduce, regulatory diversity in economic policy areas where states have autonomous regulatory jurisdiction. In some regulatory areas, its history dates back to the late 19th century, but harmonization efforts have accelerated and intensified particularly since the 1980s.

International Harmonization of Financial Regulation ...

This chapter analyzes international harmonization of financial regulation. This is a relatively new regulatory area, with international harmonization efforts starting only in the 1980s. Sector-specific regulatory coordination and harmonization efforts are traced in the fields of banking regulation (Basel Concordat, Basel Accord and Basel II), securities regulation (IOSCO MOUs and the Objectives and Principles of Securities Regulation) and insurance regulation.

Harmonization of standards, specifications, and regulations is critical to international trade. Harmonization allows companies to understand the minimum regulatory and customer requirements of international markets. This in turn allows companies to produce goods for those markets.

Harmonization - an overview | ScienceDirect Topics

The development in international trade and capital flows that has occurred over the previous two decades has increased the desire to harmonise accounting standards across the globe. The appeal of international accounting harmonization has been extensively discussed. Numerous academics Ali, J M (2005), Adhikari and Tondkar (1992), Saudagar (1997) argue that adopting International Financial Reporting Standards (IFRS) would bring great benefits to society, such as comparability of statements ...
