In England, the minimum guide for smoke alarm positioning to meet building regulations is as follows: All dwellings should be provided with an alarm system to at least Grade D, Category LD3 Position optical or multi-sensor mains powered alarms with an integral backup power supply within the escape routes of the property (i.e. hallways and landings)

Your Guide For Smoke Alarm Positioning To Meet Building ...
Positioning of Alarms • • Smoke and heat from and burning materials Moisture or steam can cause nuisance alarms.rise to the ceiling and spread horizontally. Mounting the smoke alarm on the ceiling in the centre of the room places it closest to all points in the room. Ceiling mounting is preferred in ordinary residential dwellings.

Description - DETA Electrical
When the Nest Protect smoke and carbon monoxide (CO) alarm has something to say, it will speak to you in words and colors instead of just beeping. It has two kinds of alerts: Heads-Up and Emergency Alarms. • Nest Protect can see smoke or carbon monoxide levels rising.

User's Guide - Google Nest
this User's Guide, we will refer to Carbon Monoxide as "CO." This alarm is acceptable for use near kitchens or cooking areas but can be used in all other residential applications where a smoke or CO alarm is required. After ten (10) years of cumulative power up, this unit will "chirp" two times every 30 seconds.
