The animals are divided the way the title predicts: Strange, unusual, gross, and cool. Within each section there are four types of pages: a gallery spread which shows animals that live in different parts of the world but have adapted to their environment in similar ways; a featured creature that highlights one phenomenal animal through details about its life, stats, and maps; a creature ...

It's hard to imagine dolphins being any more wonderful than they already are, but a Louisiana bottlenose dolphin named "Pinky" is almost too adorable to believe. First spotted in 2007, the unusual creature got its name from its surprising pink color, which is likely the result of a rare genetic condition.
